## INCIDENT FACTS

<b>Incident Start Date:</b> 09/04/2020		<b>Incident Start Time:</b> 6:33 P.M.	
<b>Incident Type:</b> Wildland Fire		<b>Cause:</b> Under Investigation	
<b>Incident Location:</b> Both sides of the San Joaquin River near Mammoth Pool, Shaver Lake, Big Creek and Huntington Lake.			
<b>Forest/CAL FIRE Units:</b> Sierra National Forest, CAL FIRE Units: Fresno-Kings, Madera-Mariposa-Merced			
<b>Unified Command Agencies:</b> US Forest Service, CAL FIRE, Fresno County Sheriff, Madera County Sheriff			
<b>Size:</b> 309,033 Acres	<b>Containment:</b> 44%	<b>Expected Full Containment:</b> 10/31/2020	
<b>Civilian Injuries:</b> 0	<b>Fatalities:</b> 0	<b>Firefighter Injuries:</b> 8 (minor)	<b>Fatalities:</b> 0
<b>Structures Threatened:</b> 4,576	<b>Structures Destroyed:</b> 855	<b>Structures Damaged:</b> 71	

## CURRENT SITUATION

<b>Current Situation:</b>	<p><b><u>GENERAL INFORMATION</u></b></p> <p>The reported fire growth was 1982 acres on the Creek Fire during yesterday's operational period and the containment remained at 44%. The five injuries to firefighters reported in yesterday's operational period were all minor severity.</p> <p>Strong high pressure provided a warm and dry, but stable fire environment. Poor overall ventilation to the southern and eastern portions of the fire supported smoke shading through daylight hours. Light winds again promoted slow, steady, active fire spread where fuel continuity was intact. Deep seated fire in heavy fuels continues to advance through moderately high intensity surface area.</p> <p>As areas under evacuation warning and orders are repopulated residents, business owners and others returning to the area must do so safely. Emergency personnel and equipment continue to work in the area. Please be cautious and drive safely.</p> <p><b><u>NORTH ZONE</u></b></p> <p>Continued hot and dry weather under high pressure, low Rh recovery will maintain potential for scattered flare ups, short range spotting, and undermining of tree roots. Uncontained fire edge will move up farther in the rocks and stall out. Movement of</p>
---------------------------	--

	<p>eastern edge of fire towards the Pincushion MAP is limited by lack of (detected) heat, rock out-crops, scattered fuels and steep terrain. Potential remains for movement to the North into the wilderness.</p> <p><b><u>SOUTH ZONE</u></b>  Active fire behavior. A relatively static weather pattern will again support seasonally drought stressed fuels contributing to active fire behavior in all size classes. Anticipate containment challenges associated with steep terrain and increased wind speeds along the exposed higher elevations of the fire.</p> <p>Containment remains a priority, and handcrews will be deployed in areas where heavy equipment (i.e. bulldozers) cannot be utilized due to challenging terrain.</p> <p>Operationally, the Incident Command Post at Sierra High School has been relocated to the Clovis Veterans Memorial Building at 808 4<sup>th</sup> St. Clovis Ca. 93612. With this move, Information and support will continue in place at the Sierra High School. South Zone Media Line (559)790-6374 continues to be available for support of the community and media needs related to the Creek Fire Incident.</p> <p><b><u>WEATHER INFORMATION</u></b>  An strong ridge of high pressure will continue to provide unseasonable heat with overnight lows about 10-15°above average. Very dry conditions and light, terrain driven, diurnal winds will continue. Poor humidity recovery is expected overnight along thermal belt areas.</p>
<b>Bullfrog Fire Information</b>	The Bullfrog Fire is burning on the Sierra National Forest but is not related to the Creek Fire. An Inciweb page has been established for the fire. To view information open the following link: <a href="#">Sierra National Forest Bullfrog Fire</a>

Everbridge alerts</a></p> <p><b>Madera County</b>  Madera County Emergency Warning Systems - <a href="#">mcalert.org</a></p> <p><b>Mariposa County</b>  Mariposa County Sheriff Office - <a href="#">msoalert.com</a></p>
<b>Damage Assessment</b>	<p><b>Fresno County</b>  To view an interactive damage assessment map for Fresno County open the following link: <a href="#">Fresno County Damage Assessment Map</a></p> <p><b>Madera County</b>  The Madera County Sheriff’s Office is contacting property owners directly.</p>
<b>National Park Closures</b>	Yosemite National Park reopened September 25, 2020. For specific park information please visit <a href="#">National Park Service – Yosemite.</a>
<b>National Forest Closures</b>	The USDA Forest Service Pacific Southwest Region announces increased access to some National Forests in California beginning at 8:00 a.m. on Saturday, September 19, 2020.

	<p>Nine National Forests in California remain closed: Angeles NF, Cleveland NF, Los Padres NF, Inyo NF, Klamath NF, San Bernardino NF, Sequoia NF, Sierra NF, and Six Rivers NF. This decision will continue to be reviewed daily with evolving fire and weather conditions.</p> <p>Nine other National Forests may open to varying degrees. Visitors should contact the following National Forests for more information on their status: Eldorado NF, Lake Tahoe Basin Management Unit, Lassen NF, Mendocino NF, Modoc NF, Plumas NF, Shasta-Trinity NF, Stanislaus NF, and the Tahoe NF. These forests will implement their own forest orders that will either limit dispersed use or provide for area closures around fires.</p> <p>Conditions can change quickly. Therefore, we emphasize that all citizens heed local announcements for changes in conditions and potential evacuations.</p> <p>For additional questions, please contact your <a href="#">National Forest</a>.</p>
