INCIDENT FACTS

Incident Start Date: 7/13/2021		Incident Start Time: 5:15 p.m.	
Incident Type: Vegetation		Cause: Under Investigation	
Incident Location: Feather River Canyon near Cresta Powerhouse			
CAL FIRE Unit: Butte			
Unified Command Agencies: CAL FIRE, United States Forest Service, National Park Service			
Size: 490,205 acres	Containment: 27%	Expected Full Containment: TBD	
First Responder Fatalities: 0		First Responder Injuries: 3	
Civilian Fatalities: 0		Civilian Injuries: 0	
Structures Threatened: 16,035 and Total Destroyed: 1,027 Total Damaged: 69	Single Residences Destroyed: 547		Single Residences Damaged: 39
	Multiple Residences Destroyed: 8		Multiple Residences Damaged: 4
	Non-residential Commercial Destroyed: 131		Non-residential Commercial Damaged: 8
	Other Minor Structures Destroyed: 333		Other Minor Structures Damaged: 18
	Mixed Commercial/Residential Destroyed: 8		Mixed Commercial/Residential Damaged: 0

CURRENT SITUATION

Current Situation

Dixie Fire West Zone – Crews worked aggressively throughout the day to extinguish hot spots and improve containment lines. Heavy smoke settled in the area reducing visibility. High temperatures, gusty winds and dry vegetation still have the potential to fuel fire growth. Weather is forecasted to become hotter and dryer with isolated thunderstorms late in the week. Evacuation Warnings and Evacuation Orders are changing every day, please see below for information affecting your area.

Dixie Fire East Zone – Crews encountered increased fire behavior in the northeast perimeter by Coyote Peak, China Gulch, and Dyer Mountain when temperatures rose, and the southwest afternoon winds returned. The ongoing drought experienced has contributed to tree and vegetation mortality, and increasing fire behavior. This weather pattern is expected to continue in the

<p>Situation Cont.</p>	<p>upcoming days as temperatures will reach triple digits with erratic winds and potential for dry thunderstorms.</p>
