Structures Threatened: 16,085	Single Residences Destroyed: 630		Single Residences Damaged: 46
	Multiple Residences Destroyed: 8		Multiple Residences Damaged: 4
	Non-residential Commercial Destroyed: 134		Non-residential Commercial Damaged: 8
	Other Minor Structures Destroyed: 400		Other Minor Structures Damaged: 22
Total Destroyed: 1,180	Mixed Commercial/Residential Destroyed: 8		Mixed Commercial/Residential Damaged: 0
Total Damaged: 80			

CURRENT SITUATION

Current Situation	 <p>Dixie Fire West Zone: Intense fire activity continued into the evening hours under the influence of southwest winds. A significant change in the weather pattern occurred across the incident yesterday resulting in southwest winds ranging from 15 to 25 mph. A local Red Flag Warning will remain in effect until 11:00 p.m. tonight. Damage assessment is ongoing, and the number of damaged and destroyed structures may change as teams are able to access the fire area safely. Several Evacuation Warnings and Evacuation Orders were issued today in Lassen County, please see below for information affecting your area. California historically experiences some of the most devastating wildfires. Do Not Let Your Guard Down! To learn how to prevent sparking a wildfire visit www.readyforwildfire.org.</p>
--------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<p>Dixie Fire East Zone: The Red Flag Warning remains in effect until 11 PM today due to the strong winds and low relative humidity. All lines at Keddie Point and into the North Arm of Indian Valley are holding and will continue to be patrolled. A spot fire started south of Peters Creek but firefighters were able to quickly contain it. Fire is established in Cheney Creek where West and East Zone personnel and equipment are actively working. Spots were also established in Mountain Meadow Reservoir but crews were able to use dozers for initial containment. Additional priorities for the East Zone include new containment lines to defend against the wind shift that could drive fire to the South.</p>
