INCIDENT FACTS

Incident Start Date: 7/13/2021		Incident Start Time: 5:15 p.m.	
Incident Type: Vegetation		Cause: Under Investigation	
Incident Location: Feather River Canyon near Cresta Powerhouse			
CAL FIRE Unit: Butte, Lassen-Modoc, Tehama			
Unified Command Agencies: CAL FIRE, United States Forest Service, National Park Service			
Size: 717,308 acres	Containment: 36%	Expected Full Containment: TBD	
First Responder Fatalities: 0		First Responder Injuries: 3	
Civilian Fatalities: 0		Civilian Injuries: 0	
Structures Threatened: 16,085	Single Residences Destroyed: 656		Single Residences Damaged: 51
	Multiple Residences Destroyed: 8		Multiple Residences Damaged: 4
	Non-residential Commercial Destroyed: 137		Non-residential Commercial Damaged: 10
	Other Minor Structures Destroyed: 421		Other Minor Structures Damaged: 25
Total Destroyed: 1,230	Mixed Commercial/Residential Destroyed: 8		Mixed Commercial/Residential Damaged: 0
Total Damaged: 90			

CURRENT SITUATION

Current Situation

Dixie Fire West Zone: The fire became more active today with the increase of southwest winds. Though fuel moistures remain critically low, a much quieter weather pattern is expected Sunday, and into the middle of next week. Crews continue working to strengthen control lines. Damage assessment is ongoing, and the number of damaged and destroyed structures may change as teams are able to access the fire area safely.

Northern California has experienced large fire activity and will likely experience an extended fire season. Fires burning in northern California are exhibiting extreme fire growth based on critical fuel conditions. The prioritization of resources is always based on life, property, and natural resources. Under these drought conditions, wildfires are burning rapidly with extreme severity and have traveled up to 8 miles in a single day. Fuel conditions are much worse than previous years and along with wind is causing much greater fire spread. Firefighters are experiencing conditions never seen before, such as increased spread rates, spotting and active nighttime burning.

	<p>We coordinate very closely with the US Forest Service and CalOES for our local and out of state partners, to ensure resource availability.</p> <p>Dixie Fire East Zone: A Red Flag Warning was in effect from 11 AM to 6 PM. This brought gusts of up to 30 mph today. Crews and dozers continued to aggressively engage the fire in the Genesee Valley and completed initial lines around the eastern perimeter near the south end of Walker fire scar. Aviation assets supported crews with additional drops on the spot fire in the Devil’s Punchbowl. All other available resources continued to engage in control efforts and point protection in the Genesee and Taylorsville area. The southeastern edge of the fire perimeter near Janesville challenged the line with winds out of the west. Early this afternoon activity increased but firefighters, with air support, were able to halt the forward rate of spread. Late in the afternoon air operations were halted due to unfavorable winds and poor visibility. The southern edge continues to back down to the north end of Walker fire scar, where crews are reinforcing Boulder Road.</p>
