The SPCA of Mariposa County was incorporated on July 12, 1976. The specific and primary purpose is to provide a facility for keeping and caring for animals and to provide a means of enforcing laws relating to cruelty to animals. The general purpose, for which this corporation is formed, is to provide an arena for local education and humane treatment to animals and to foster local interest in such a society. The SPCA of Mariposa County is famous throughout Central California for maintaining a spotless facility with healthy, socialized animals for adoption.

Your membership dollars will help the SPCA do many great things. In 2021, the Mariposa SPCA found homes for 81 dogs and 85 cats. Each animal was spayed or neutered, tested for heartworm, given vaccinations and a general health check. They also have a complete behavioral assessment and receive basic training before being placed for adoption. Membership fees supply the food, cleaning supplies, and litter that are used to keep our animals clean and healthy. They also provide necessities to victims of fires or other catastrophic events.

The Mariposa SPCA continues to give back to our community through the Juanita Moore Spay/Neuter Program. As of December 2021, the Juanita Moore Program has spayed or neutered 508 dogs and 424 cats since its inception in 2011. We're able to continue to operate this program because of donations from our supporters.

Your membership in our organization and your support is greatly needed and appreciated. If you would like to become a new member or are renewing your membership in the Mariposa SPCA, please simply fill out the bottom portion of this form and return in the enclosed envelope along with your check.
